U.S. DEPARTMENT OF COMMERCE

BUREAU OF PUBLIC ROADS

WASHINGTON, D.C. 20505

(15) 1-1-10

IN REPLY REFER TO:

34-16.11

Mr. John A. McCone
Director
Central Intelligence Agency
Washington, D.C. 20505

Dear Mr. McCone:

25X1A9a

Our Employee Relations Officer, Earl C. Peterson, has discussed with Mr. [REDACTED] Chief of your Internal Section, possible health facility coverage for our employees quartered in the [REDACTED] Road building.

25X1A6a

25X1A6a

The Bureau of Public Roads has 154 employees occupying three floors of the [REDACTED] building who are without health unit services. Since this number of individuals does not warrant us sponsoring a health unit in that locale, we solicit consideration of a cooperative arrangement whereby the CIA health unit there could be made available to this small group of our employees, on a per capita cost reimbursement basis.

We certainly appreciate the considerations on your part involved in this connection, but we are quite disturbed with the absence of any type of health unit coverage for this segment of our personnel, especially if and when an emergency should arise.

We would be most appreciative for whatever participating arrangement you find possible to extend, and will be glad to discuss any plans with you at your convenience. I have asked Mr. Peterson to be available. He can be reached on code 128, extension 6278.

Sincerely yours,

[REDACTED]

H. J. Martin
Chief, Personnel and
Training Division
